

### **Dentistry 19 Ltd - COVID-19 Notice**

In light of the escalation of the covid-19 pandemic and the phase we're now approaching, we have had to make the very difficult decision to close the Practice. this has meant placing all but one of our team on furlough. We are also taking the following pro-active steps to play our part in reducing the risk of further spreading the Coronavirus:

- The practice is closed to regular dental care
- We will be providing urgent emergency care only. Should you have a *genuine* dental emergency, please ring the practice as usual on 01279 722701 where you will be directed to the emergency number.
- We will be cancelling all existing appointments and rebooking as soon as the situation allows.
- If you have a minor dental problem and simply need advice, please see [here](#) first and if you then still require further advice, email on [info@dentistry19.co.uk](mailto:info@dentistry19.co.uk)

We urge you to follow government advice with respect to covid-19 and STAY AT HOME. that is the best chance we have of beating this and emerging safely once it's all over.

Anyone who has a temperature and/or a continuous cough or has been in self-isolation with someone who has the above symptoms should not attend the practice and should either call 111 or our emergency number and we can signpost you to dental services that are set up to safely care for you.

Thank you for playing your part and being socially responsible for the sake of all.

Please take care during this crisis and we look forward to seeing you all when it is once again safe to do so.
